

Please DO NOT allow LPMF stations to take priority over current FM translator service. I highly value the national service of Air 1 for it has enriched my life and the lives of others in my community. If Air 1 were to be replaced by an LPFM broadcaster providing other programming, then we would lose the one contemporary voice for positive music and the purveyor of decency in this region. There are very few positive influences on today's youth. Please do not allow Air 1's outreach to be quenched by LPFM broadcasters. Preserve our current FM translator service.
